

A-Plus Student

There are things that I may never be,
there are places I may never go.
There are things that I may never do,
but that's nothing compared to you.
I was never good in school,
but there was one thing I did well,
When it came to lovin' you,
I studied and excelled,
I was an A-plus student when it came to loving,
A-plus student when it came to loving you.

There are things that I've tried and failed,
and time when I took the prize;
but it's worth every test I've had
when I look into your eyes.
I was an A-plus student when it came to loving,
A-plus student when it came to loving you.
One thing is for certain,
when I face that final curtain,
I know I've passed the test,
'cause you know
I love you the best;
I love you the best.

I was an A-plus student when it came to loving,
A-plus student when it came to loving you.
I was an A-plus student when it came to loving,
A-plus student when it came to loving you.
I was an A-plus student when it came to loving,
A-plus student when it came to loving you.
